

PEHSU'S HISTORY & MILESTONES*

We are **a national network of experts in child health issues caused by environmental exposures**. We work with health care professionals, parents, schools, community groups, federal, state, and local government agencies, and others to address reproductive and children's environmental health issues.

Healthy Environments for All Children Since 1998

**Examples below are not exhaustive, but provide a snapshot of PEHSU achievements*

PEHSU is created by **CDC/ATSDR**.

PEHSU offers advice to families on **staying safe in areas affected by Hurricanes Katrina and Rita**.

PEHSU provides information on the **health effects of lead in water** during the Flint, Michigan Water Crisis.

Addresses families' concerns about **heavy metals in baby food**.

25 Years of PEHSU:
Educated over 400,000 community members, and nearly 600,000 health professionals. Published over 1300 works and provided 20,000 consultations.
